

Carbon Reduction Instruments and Tools

Xavier Riera-Palou, Royal Dutch Shell
Semi-Public Workshop, May 22nd 2015

Carbon Reduction Instruments and Tools

Objective

We learn how OGCI member companies are reducing greenhouse gas emissions and improving operating and product efficiency through understanding various carbon reduction instruments and tools

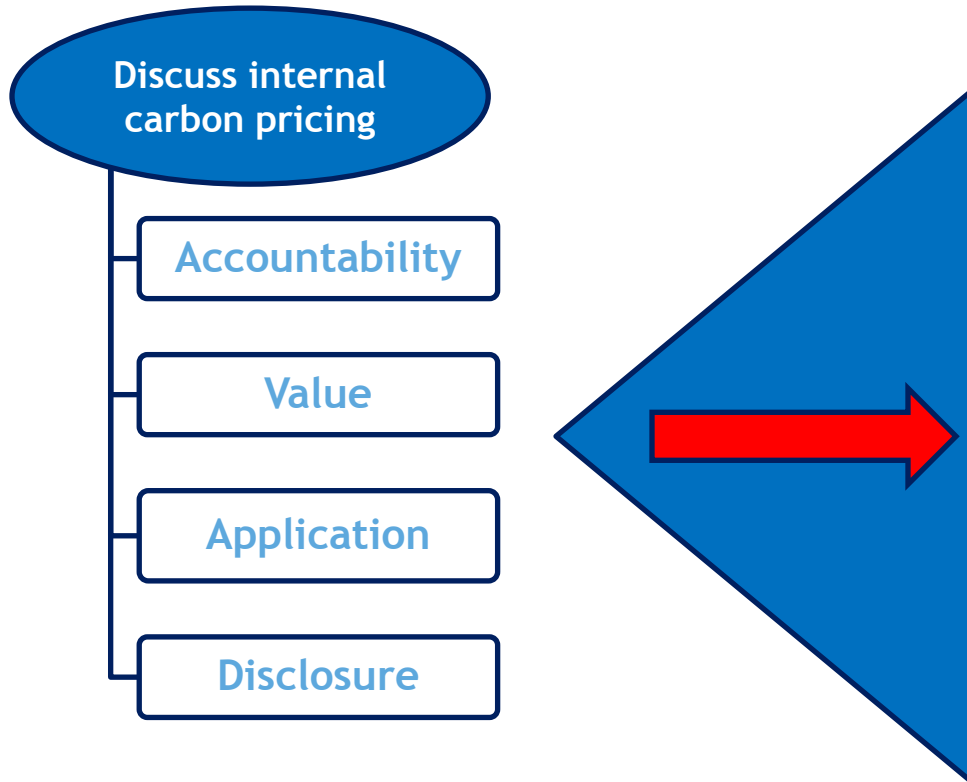

Participating Companies

Carbon Reduction Instruments and Tools

Progress to Date

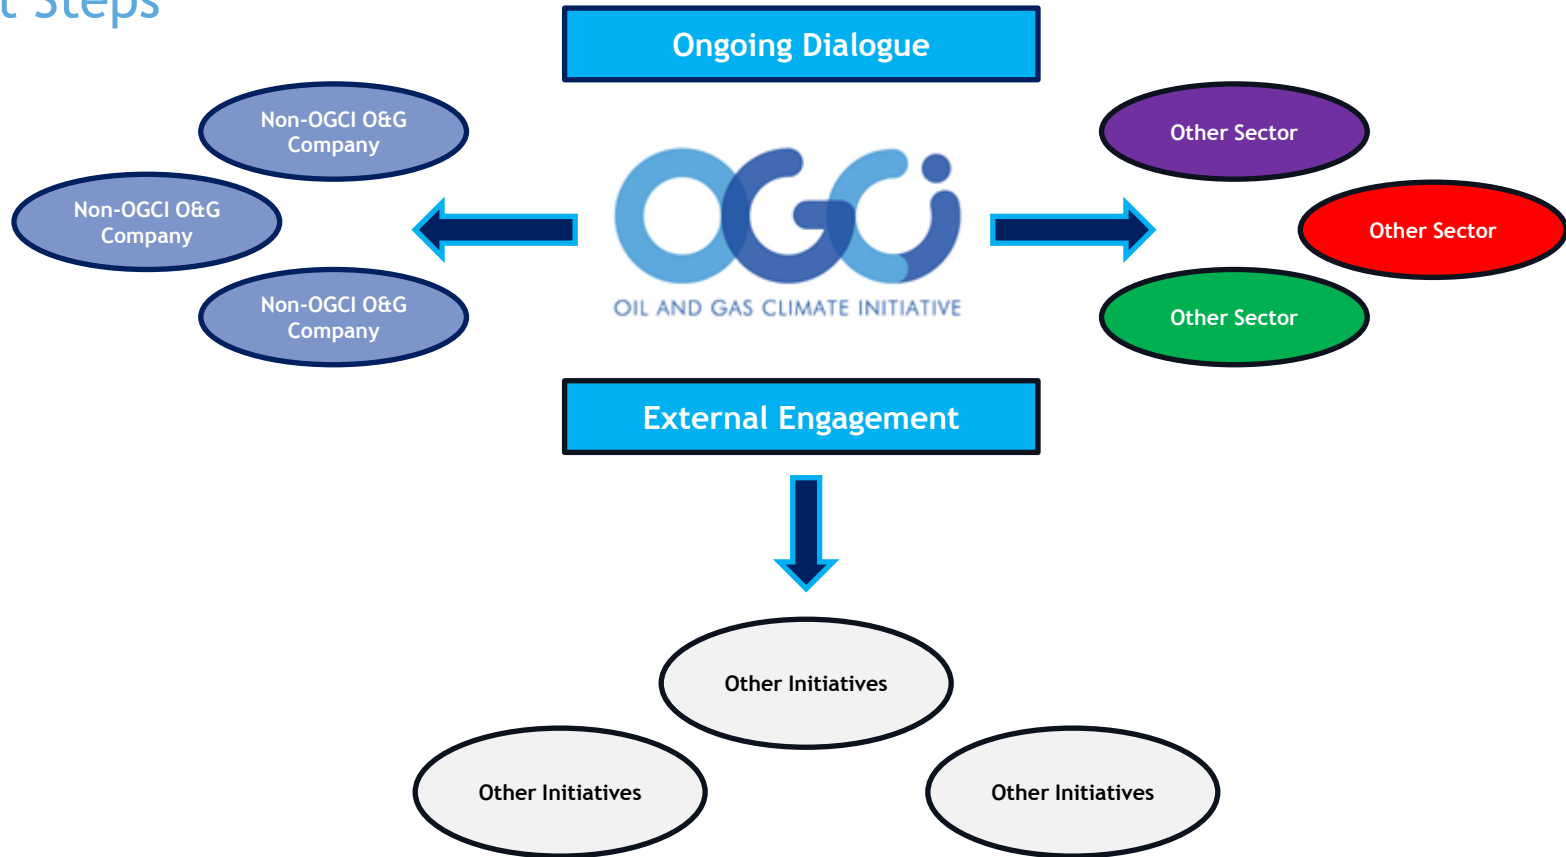

Complimentary Programs and Policies

Carbon Reduction Instruments and Tools

Next Steps

Carbon Reduction Instruments and Tools

2015 Deliverables

Work Stream

- Internal report consolidating company data and sharing of best practices across various carbon reduction instruments and tools
- Agree 2016 work plan direction

Initiatives

- Identification of explicit opportunities to engage other initiatives

External Engagement

- Identification of other sectors and industries for on-going collaboration and workshops
